***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 2, 7, 9, and 15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. Claim 1 contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claim 1 recites "one of a twisting the spring ... and pulling the spring;" but the specification [0042] enables both twisting and pulling only, not twisting or pulling.

***Allowable Subject Matter***

Claims 16-21, 23-28, 32-44, 46-53, and 55 are allowed.

***Response to Arguments***

Applicant's arguments, see page 8, filed 21 May 2007, with respect to the rejections of claims 1, 2, 9, 15-17, 21, 22, 27, and 28 under 35 U.S.C. 102 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new rejection is made in view of enablement.

The examiner contends applicants' must claim twisting and pulling, as disclosed in paragraph [0042], in order to avoid the problem of new matter.
